

Every Name Index to Henry County, Tennessee Estate Settlements, 1821-1955

This index was created from original loose records of the Henry County Estates Settlements, located at the Henry County Archives, Henry County, Tennessee. Every name relevant to the case has been abstracted, 33,959 Names

They were created when someone died with matters that still needed resolving by the courts. The primary purpose was to determine any indebtedness or assets of the deceased sell any unapportioned land and distribute any remaining proceeds among the heirs. Widow's dowers and homesteads were often established and guardians appointed for minor children. Litigations against the estate are often included.

Sample Data: SURNAME, Given Name, Year

An asterisk (*) after the name means they are the deceased/testator. In addition to the testator, anyone with the same surname, widows, heirs and others with another surname when their relationship to the deceased is indicated.

Copies of the actual documents may be purchased from the Archives for a nominal fee. If interested in copies please submit an email to henrycountyarchive@gmail.com.

A hard copy of this index may be purchased from the Henry County Archive. The hard copy, in addition to just the Names and years (as is online) also includes the actual file numbers used to find the record at the Archives. It is plastic spiral bound with a laminated cover and the cost includes shipping. Unbound books are the same price as those with laminated covers.

Please go to: http://www.rootsweb.ancestry.com/~tnhenry2/books_for_sale.html for ordering information.
